Anywhere
SIMPLY SMARTER

SA Classification: Public

INTRODUCTION

- Dutch scale-up engineering company
- Established in 2009
- >20 years of experience in RF Design
- Wireless Solutions (OEM business first)
- Long-life sensors (temp, RH, motion, CO2)
- 10-year battery life
- Deployments in over 80 countries on all continents
- ISO 9001, ISO 14001 and 27001 certified
- SenseAnywhere's Calibration Laboratory is ISO/IEC

SIMPLY SMARTER

SA Classification: Public

Turn key monitoring solution

Measure temperature

Measure humidity

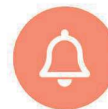

Track motion

Secure & Redundant Cloud storage

Anytime, anywhere accessible

Alarm users If necessary

SenseAnywhere leads a new generation of ultra-low power data loggers for real-time temperature monitoring, that wirelessly connect to the Cloud. Our data loggers are easy to install, use, and maintain and have a 10-year battery life.

SA Classification: Public

Applications

○ PHARMA

○ FOOD

○ MAPPING

○ LABORATORY

○ COLD CHAIN

Features

Alarms

Receive notifications per email, SMS or through voice when limits are exceeded

Real-time

24/7 monitoring gives you a complete audit trail of your products

Seamless Roaming

Automatic network discovery, No pairing required

Security

Wireless communication is a secure 2-way communication

Ultra-low power

Our unique and efficient wireless protocol allows you to receive >1 million measurements in the Cloud; The battery lasts for 10 years

Interactive display

By scanning the devices unique QR code you can immediately view your data in the Cloud

And it is very easy!

Easy to install

gister + connect = ready!

st installation

cables or software

Easy to use

d based

all industries

ccessible from any device

Easy to maintain

Lifetime battery

Automatic back-ups

maintenance
quired

In **SenseAnywhere's** safe and secure Client portal, you can access data and edit the settings of your data loggers. You can also view graphs, set alarm profiles and schedule and download reports, among many more. Our software and data storage are FDA compliant and support GxP and HACCP requirements.

- ✓ Web-based software
- ✓ Cloud-based infrastructure
- ✓ Data Storage Period 5 years
- ✓ Scheduled reports
- ✓ 10 users
- ✓ Replicate read only database
- ✓ FDA 21 CFR part 11 compliant

MOST POPULAR

- ✓ Standard subscription features
- ✓ Generate reports on demand
- ✓ Data Storage Period 10 years
- ✓ Scheduled alarm profiles
- ✓ 25 users
- ✓ Transport alarm: trip ok/not ok
- ✓ Full Audit Trail

BEST VALUE

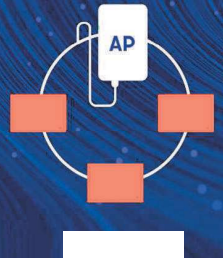

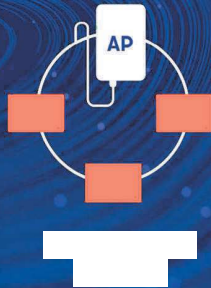

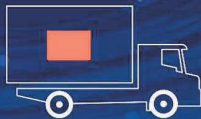

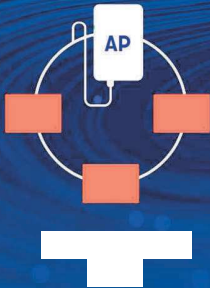

- ✓ Standard+Pro subscription features
- ✓ Hierarchical divisions
- ✓ Data Storage Period 15 years
- ✓ 5 alarm profiles per logger
- ✓ Unlimited users
- ✓ Events Webhook (Push API)
- ✓ Complete Enterprise overview
- ✓ GxP validated

AIROSENSOR

relative humidity 0-99%
non-condensing

AIROSENSOR WITH PT100

Monitor ultra-low and
ultra-high
temperatures from
-200°C to +200°C

ACCESSPOINT

Our data loggers seamlessly
connect to our
AccessPoints, which connect
to our Cloud service

SA Classification: Public

ASSETTAG

Easy hot swapping between data loggers with the AssetTag, excluding monitoring gaps

EXTERNAL MODULES

Enable limitless measurement possibilities by connecting one of our modules to the AiroSensor and third-party sensors

TEMP+RH AND TEMP ONLY

Highly accurate temperature measurements, fast and effective temperature and RH monitoring in dynamic environments

Quality, reliability and security

QUALITY IS KEY AT SENSEANYWHERE

- SenseAnywhere is ISO 9001, ISO 14001 and ISO 27001 certified;
- SenseAnywhere's Calibration Laboratory is ISO/IEC 17025 accredited;

We offer products and services that meet customer and regulatory requirements;

- Our temperature data loggers meet the most stringent class of the EU regulation for data loggers EN12830:2018 accuracy class 0.2.

SA Classification: Public

RELIABILITY

- Our software is validated, and we can provide you with IQ and OQ documentation;
- Our system enables you to set up and implement a GxP or HACCP compliant temperature monitoring solution;
- We comply with the requirements of FDA 21 CFR part 11;
- Software is developed according to the GAMP5 rules;
- The communication of the data loggers as well as our portal regular basis.

Security

SECURITY WITH MICROSOFT AZURE

- At SenseAnywhere, your data is stored safely and securely in the Microsoft Azure Cloud;
- Azure is one of the best Cloud infrastructure platforms nowadays;
- Highly protected against hardware and power failures.

SA Classification: Public

Data storage

SUMMARIZING DATA STORAGE

- SLA uptime 99,99% of the database (Microsoft SLA agreement);
- Highly scalable;
- Replicate read-only database infrastructure;
- Backups made continuously (any point in time restore) and stored for 35 days;
- Data centres located in Europe;

years and up to 15 years.
